BENCHMARK ESG™

The Next Generation of Gensuite®

Contractor Manager

Software Built to Streamline Management of Contractor Firms & Worker Safety

Establish a standardized program to collaborate, track, and investigate contractors and incidents with Benchmark ESG™ 's Contractor Manager Software.

Contractor Manager is a centralized solution for conducting contractor pre-qualifications, tracking project safety performance, assigning contractor action items, dashboarding performance, and maintaining a repository of qualified contractors. Most importantly, Contractor Manager aims to enhance contractor safety performance by gathering insights through contractor inspections and observations, and leveraging them to proactively mitigate safety risks and contractor incidents.

DISCOVER WHAT CONTRACTOR MANAGER CAN DO FOR YOU

Streamline the management of your contractor relationships, tasks, and safety performance.

▶ Lookup firms using a shared company-wide repository

▶ Conduct contractor pre-qualifications electronically and set reminder dates for firm re-qualification email notifications

▶ Monitor and track safety performance data, including Incidents & Illness (I&I) metrics, for each contractor firm and project (optional)

▶ Follow action items by contractor firm and assign responsibilities with instant email notifications

▶ Log training and certification records for contractor employees using the Contractor Employee Tracker and configure course & employee record types

▶ Field Observations captures onsite contractor-related safety issues and hazards with focused selection of at-risk acts & conditions

▶ Review key business analytics from the Contractor Manager homepage

Manage Contractor
Collaboration More Effectively with Benchmark ESG™

With 250,000+ active projects processed to date across 1000+ and 65 countries, Contractor Manager has the proven capabilities that you need to efficiently review contractor project progress and safety performance, assign tasks, and manage your contractor firm repository.

Flexible Configurations

Created with your needs in mind – flexible configurations enable customizable options to monitor contractor processes and safety performance.

Mobile

Leverage mobile compatibility to access Contractor Manager in the field – use with iPads, Android or Windows Tablets.

Easily Integrated

Seamless integration with other Gensuite applications for qualification forms, safety performance, and contractor-related inspections.

Real-Time Reporting

Review key business analytics at a glance from the dashboard.

What are people saying about Contractor Manager

"As a fast-growing company with multiple sites, Benchmark ESG™ enables us to see critical EHS data from afar. The best thing about Benchmark ESG™ is that it is user-friendly for our team, encouraging accurate reporting and data from our front-line users through intuitive interfaces."

- EHS Director and Benchmark ESG™ User
