

My LMS®

Simplify Compliance Training using an Integrated Learning Management System & Training Assignment Tracker

My LMS® provides a simple learning management solution and training assignment tracker that can be utilized for training & skill development needs across organizations to meet operational risk management and compliance assurance objectives.

Enable compliance training managers and supervisors to develop dynamic team rosters, establish a flexible and automated training matrix, schedule assignments, provide access to on-line content and facilitated training sessions, and track course completion tracking through on-line tests and quizzes.

Ensure that your team stays up-to-date with regulatory compliance training requirements, industry best practices and other learning development programs. Deploy My LMS's extensive learning library of on-line partner courses available on an economical, turnkey basis or utilize the content authoring capabilities to upload and customize your own training materials.

Discover What My LMS Can Do for You

- ▶ **Boost employee engagement** with a user-friendly, employee-centric Learning Management dashboard to initiation required training and development courses
- ▶ Management portal for **real-time visibility** into training details across your organization, with automated alerts when they are past due

Key Capabilities

④ Modern Compliance Training Centered on the Student.

With a simplified and intuitive interface, employees can easily access their dashboard to review assigned trainings, review historical completions, and self-enroll for on-demand on-line courses or classroom sessions.

④ Simplify Training & Compliance Management Tasks.

Automatically schedule courses and review on-line scores, receive notifications for upcoming due dates, and review comprehensive reports for full visibility to progress, completion status, and ensure that employees are adequately trained and qualified to complete their daily tasks.

④ Turnkey Access to an Extensive, Online Content Library.

- Access a library of on-line resources from multiple integrated content providers, including SCORM & AICC compliant content
- Access Covid-19 content for continued education and awareness of pandemic-related health and safety best practices and regulatory requirements
- Easily create and upload your own training content and e-tests
