

# Proactively Manage Workplace Safety with Safety Observations

It's your mission and passion to protect your employees. How can you proactively manage the safety of your workplace? You can prevent accidents before they happen by engaging all employees with Benchmark's Safety Observations application.

Safety Observations enables you and your team to develop and measure leading indicators for safety improvement and drive accident prevention—allowing employees to quickly record & data mine behavior-based safety observations, utilize flexible configuration tools to match site-specific operations profiles and safety priorities, and leverage instant analytics and actionable insights dashboards to identify safety improvements.

## DISCOVER WHAT SAFETY OBSERVATIONS CAN DO FOR YOU

Enable real-time improvements & promote safe employee behaviors

- ▶ Manage a standard list of applicable behaviors and conditions by risk category for trained observers
- ▶ Establish a roster of active observers with assigned targets & forms for observations
- ▶ Access easy-to-use observation forms, with options to record barriers and feedback on both Desktop and Mobile
- ▶ Identify safety program improvement opportunities and take action with integrated analytics
- ▶ Record notes, include photos and track follow-up on a single platform
- ▶ Tie into leading-edge safety concepts, e.g. Human Organizational Performance (HOP)

# Establish, Manage & Easily Report Behavior-Based Safety with **Safety Observations!**

- ▶ 135,500+ Observers across 3,057 sites – 339 Countries
- ▶ 2.3+ Million Observations Logged
- ▶ 17+ Million At-Risk Behaviors & Conditions Detected
- ▶ 72,224 Follow-up Items Tracked

## Business Profile

- ▶ U.S.-based food retail & distribution company with 300+ locations
- ▶ 70,000 employees across 300+ locations
- ▶ Operates over 2+ million square feet of grocery and non-food warehousing

## Business Needs

- ▶ Record employee observations at respective site, department or equipment-specific levels
- ▶ Maintain real-time visibility to safety observations across multiple locations
- ▶ Leverage Mobile technology to record observations

## Results

- ▶ Recorded 5,500 safety observations in one year using cloud-based observation forms and checklists
- ▶ Met 100% of yearly set safety observation target
- ▶ Significantly improved employee engagement at both retail and warehouse locations

## What are people saying about **Safety Observations?**

“With Benchmark, you are able to easily identify trends that can assist you in making the right steps to cease, or at very least decrease, the possibility of incident or injury. It has been amazing to see the progress we have made in just a little over a year now.”
